

The screenshot displays the IBM Watson Studio web interface. At the top, a browser address bar shows the URL: `dataplatfrom.cloud.ibm.com/projects/1169c79a-8470-4650-bad5-b21ab068ca35/overview?context=cpcdaas`. Below the browser, the IBM Watson Studio header includes a search bar and navigation links like 'Buy', 'Reshma M's Account', and 'Dallas'. The main content area is titled 'Projects / Crude Oil Price Prediction' and features three tabs: 'Overview' (selected), 'Assets', and 'Manage'. The 'Overview' tab is divided into three sections: 'Assets' on the left, 'Resource usage' in the top right, and 'Project history' on the right. The 'Assets' section lists a project named 'Crude Oil Price Prediction' created 4 hours ago, with a 'View all' link. The 'Resource usage' section shows a bar chart for 'For this month in this project' with a value of '2.2 CUH'. The 'Project history' section shows a message: 'You created project Crude Oil Price Prediction Today at 02:39 PM'. At the bottom of the interface, there is a Windows taskbar with various application icons and a system tray showing the date and time as 7:56 PM on 11/11/2022.
